Queen Bey and Kim K Bff's??

Twitter was disrupted for a moment when a pic surfaced of Beyonce at the **"The Watch the Throne Tour in the UK"**

. Some of Bey's fans feel as though it's a little beneath her to be friends with Kimmy Cakes.
I mean but didn't we see this coming?

Their dudes are best friends and they work together.

It's not like Beyonce to be rude so I expected the connection.

Kim is a hustler by nature, first Kanye, then Oprah, and now Beyonce!!

I ain't mad at ya Kim
