Lady Gaga in double digit inch heels!!

Do you think you can walk in these?? **"Lady Gaga"** is becoming a pro in stilettoes, I think these may have given her a run for her money though because it was said that she fell over while walking in the **"Meat Packing District"** of New York. Even if she tumbled over a 1000 times she still gets an **"A" for effort because her outfit was Ultra Fabulous**, and an A+ for having the guts to walk in those shoes in public!!
