Beyonce is working overtime promoting her newly anticipated album, set to be released on June 24th. Here she just touched down in Paris. I'm so feeling that hat lady-HAAAAAUTE. The look is so European.

Bey's next performance is at the Glastonbury Festival this month in the UK on June 28th. I know its going to be the dabomb.com. Check out her foot wear...Im so digging those peep toe Gianmarco Lorenzi. ONLY Beyonce can wear a sequent top and make it look like a white-t!!!

YOU GO GIRL!!!
