Just Who Is Odd Future??

All of the recent twitter beef between Chris Brown and Odd Future has left all of our readers wondering "**Just who is ODD Future?**" (**See Tweets below**). Here's what I know so far. Odd Future consist of leader 19 year old

"Tyler The Creator",

who claims there are at least 60 people in the group including "Frank Ocean". Any Who!!!! I think I'm finally starting to believe that rap wars/beef are ignited to give artist the attention they need in order to claim their fame. I say that because all of the attention this Twitter beef has brought to the media forced me to take a listen at Odd Future's single they recently performed on the Jimmy Fallon Show "Sandwiches" and I must say I was frightened..... SMILES

A friend of mine "Raze the Shadow" also a new rap artist mentioned that Tyler has a type of Lady Ga Ga affect on rap music that will certainly keep him a kite. I have to say that dude "Tyler the Creator" is very talented, a lyricist like non other. I have a feeling we will be seeing more of him.

Listen to Tyler the Creator's "Yonkers" below....I'm feeling this one!!

UPDATE: Everyone can let their kids, animals, and plants outside again, the beef has ended between Chris Brown and Odd Future!! HA.....
