Love and Hip Hop Hollywood Season 2

Who all tuned in this past Monday to Love and Hip Hop Hollywood? I have to admit Love and Hip Hop is my guilty pleasure. I tend to lean more towards the Atlanta cast..... but Mona Scott definitely got my attention this season in **Hollywood when the first openly gay couple was cast.**

Sh** just got real folks. The story follows two rappers Miles and Milan and their struggle to have the relationship they want with each other without the ridicule, and did I tell you that there is a bit of a love triangle involved? Amber, also an inspiring rapper and ex girlfriend of Miles wants her old flame back but she doesn't know that he is gay. I can see a lot of drinks being thrown at people this season. Stay tuned to see some familiar faces and their relationship struggles and career endeavors.

Love and Hip Hop airs on VH1 on Mondays 8/7C
